

SAVE THE DATE!

Lyophilization Forum 2017:

Formulation, Cycle Optimization,
& Emerging Drying Technologies

October 4–5, Racquet Club of Philadelphia, PA

Over 16 Featured Speakers, Including:

Ekneet Sahni, Sr. Scientist, Pfizer

Padam Sharma, Director, Teva

Lisa Hardwick, Research Scientist, Baxter

Carly F. Chisholm, University of Colorado

Jeffrey Blue, Director, Merck

Indu Javeri, Pres. & CEO, CuriRx

Jamie Tsung, Principal Scientist, Momenta

Lokesh Kumar, Assoc. Scientist, Genentech

Featuring Comprehensive Coverage On:

- Compliance and Regulatory Expectations for Lyophilized Products
- Process Validation for Lyophilized Drug Products: Developing a Program for Continued Process Verification
- Using Hydrogen Deuterium Exchange Mass Spectrometry (HDX-MS) for Lyophilized Protein Formulation and Process Optimization
- Biopharmaceutical Lyo Products: Scale-up from Development to Manufacturing
- Considerations Of Excipient Selection For Stable Lyophilized Product Development
- The Latest Technology in Parenteral Product Filling and Freeze-Drying: Completely Enclosed Barrier Isolator Systems
- Tech Transfer & Scale Up in Lyophilized Vaccines
- Controlled Nucleation
- And Much More!
